Domestic Violence and Abuse pathway for Health Services

Domestic violence and abuse (DVA) is “any incident or pattern of incidents of controlling, coercive or threatening behaviour, violence or abuse between those aged 16 or over who are or have been intimate partners or family members regardless of gender or sexuality. This can encompass, but is not limited to, the following types of abuse: Psychological, Physical, Sexual, Financial and Emotional”.

The NICE DVA Pathway suggests that trained staff in antenatal, postnatal, reproductive care, sexual health, alcohol or drug misuse, mental health, children’s and vulnerable adults’ services should ask service users whether they have experienced domestic violence and abuse as a routine part of good clinical practice, even where there are no indicators of such violence and abuse.

Before asking the Domestic Violence and Abuse screening questions – consider:

Opening Questions
Do not ask questions in front of the potential perpetrator or children over the age of 2

If appropriate, complete the Screening Questions on page 2 with the victim/survivor

Do you have any immediate concerns for your client’s welfare or safety?

Yes

No

Are there children or other adults at risk of abuse involved?

Yes

No

Does the client have additional vulnerabilities?

Yes

No

Refer to the IDASH service for a risk assessment, further advice and support
Integrated Domestic Abuse Service for Hampshire (IDASH) – Tel: 03300 165 112 email: referral.spoc@sdas.cjsm.net

For concerns about perpetrators of abuse, call the DAPP Service on: 02380 009898

In all cases, undertake the following actions with your client if it safe to do so:

✓ Talk to your client about safety planning
✓ Consider what your agency should do to help them and keep them safe, and which other agencies should be contacted
✓ Ask if they want further support or information to take away if they have somewhere they can keep it (e.g. make client aware that they can cover their internet tracks when accessing domestic abuse websites)
Do not ask questions in front of the potential perpetrator

Make sure you ask in a private environment and do not use family or friends as interpreters. Consider the presence of children over the age of 2 years who may be able to report back to perpetrator.

Be aware of patients holding a mobile phone during the consultation as the perpetrator may be listening to the conversation.

Patients highly value compassion and the quality of being non-judgemental

Domestic Violent and Abuse Tool (DVA Tool)

The Domestic Violence and Abuse tool has been developed to aid practitioners to understand/establish the level of concern they have following discussions with the client. This can help to ensure that an appropriate response is given to the level of concern indicated and covers a wide range of DVA indicators which should be considered.

Other areas to note as risks:

- During pregnancy domestic violence and abuse may start or intensify. Having a child < 1 year old is also an additional risk

- Family history of domestic violence and abuse: witnessing DA impacts on individual’s risk of becoming either a perpetrator or a victim. It can impact on what is perceived as acceptable behaviour

- Previous history of an abusive relationship: Either by a partner, ex-partner or a family member

- Forced marriage/honour based violence: family may be unsupportive to the victims requests for help or indeed harm the victim for bringing the family into disrepute

- Victim’s minimisation, self-blame or excuses abusive behaviour

**Protection Planning:**

Do you have a safe place to go in an emergency? Any additional information?

If the victim answered **YES** to the Domestic Violence and Abuse Opening Questions and **one or more** of Domestic Violence and Abuse Screening Questions then a referral should be made to IDASH: 03300 165 112 as this indicates that the victim may be at risk of Domestic Violence of Abuse. This will require the victims consent, unless they lack capacity to make this decision (Mental Capacity Act, 2005). If this is the case, a Best Interests Decision supported by the rationale should be made and fully recorded.

If you think that a child or adult with care or support needs may be witnessing or experiencing abuse/neglect, you should make a referral to Children’s and/or Adult Services. If unsure please refer to your Safeguarding Children/Adult Policy and the Mental Capacity Act 2005 Guidance.

If you are concerned that a child or adult is immediate risk, contact the Police directly on 101 or 999 (in an emergency).
