#SAFEANDWELL

Hampshire & Isle of Wight
FIRE & RESCUE SERVICE

WHAT IS SAFE & WELL?

What will we do during a visit?

Identify any potential fire risks and discuss with the occupier how they can prevent or reduce the risk

Ensure occupants have working smoke alarms, install where necessary, and advise on maintenance and testing

Ensure occupants have carbon monoxide detectors, where needed, install if necessary and discuss the dangers

Help put together a household escape plan and identify any mobility issues that may impede an evacuation

Issue fire retardant bedding, furniture throws and nightwear where needed

Give basic advice on topics such as falls prevention and smoking

Who do we visit?

Our visits are aimed at the most vulnerable people in our community.

If any of the following apply, you can refer an individual to us for a free home fire safety visit.

- Aged 65 and over
- Concerns over fuel hardship
- Evidence of fire risk concerns for example burn marks on bedding and furniture
- Signs of hoarding
- Signs of unsafe cooking practices
- Hearing impairments - might not hear a smoke detector sounding
- Cognitive impairments that would impact their response and ability to evacuate
- Mobility impairments that would impact their ability to evacuate
- Anyone who is substance or alcohol dependant
