

4LSAB MULTI AGENCY FIRE SAFETY FRAMEWORK TRAINING EVENT

Identifying and managing an individual's vulnerability to fire through a partnership approach

Dear Colleague,

Our 4LSAB Multi-Agency Fire Safety Framework training event needs you!

The Framework launched in May 2021 is designed to provide you and your colleagues with guidance for the effective management of fire risks within the home or residential setting.

Our training event will support you by improving your awareness of the key risk factors that increase an individual's vulnerability to fire and explain the early interventions and controls measures available, to ensure any risks can be managed effectively.

To support the launch of the 4LSAB Multi-Agency Fire Safety Framework, there is a virtual event being held on Thursday 14th October from 10am till 12.30pm.

The Eventbrite invitation to register your free place can be found here:

[4LSAB Multi-Agency Fire Safety Framework training Tickets, Thu 14 Oct 2021 at 10:00 | Eventbrite](#)

Delivered by local subject leads, the session will cover the purpose of the framework and its use in practice, identifying the vulnerability risk factors, covering the person-centred fire risk assessment, care home risk, domestic risk and mental health considerations.

Alongside our guest speakers there will be plenty of opportunity to have your say and have any questions answered.

We do hope you will be able to join us.

Yours sincerely,

John Amos – FSDG Chair and Group Manager for Community Safety, Hampshire and Isle of Wight Fire and Rescue Service
